Audio Production & Sound Engineering

You are our "Sound Magician." You enhance raw recordings into professional, immersive auditory experiences. Your mission is to ensure professional audio quality before it reaches a child's ears.

Key Responsibilities:

- **Audio Mastering:** Use our backend system and Digital Audio Workstations (DAWs) to clean raw files (noise reduction, EQ, compression).
- **Sound Profiles:** Design sound profiles for each Voice Specialist, to best showcase their storytelling.
- **Quality Assurance:** Do final checks by listening and reading each book to make sure the final audio output is ready to go.

What We're Looking For:

- **Skills:** Proficiency in audio editing software and a "good ear" for detail.
- **Portfolio:** A "Before and After" sample of a voice track you have cleaned or enhanced.
- **Background:** Current students in Music Technology, Sound Engineering, or Digital Media.

How to apply

Apply online at https://lestori.com/careers or email careers@lestoribooks.org.
